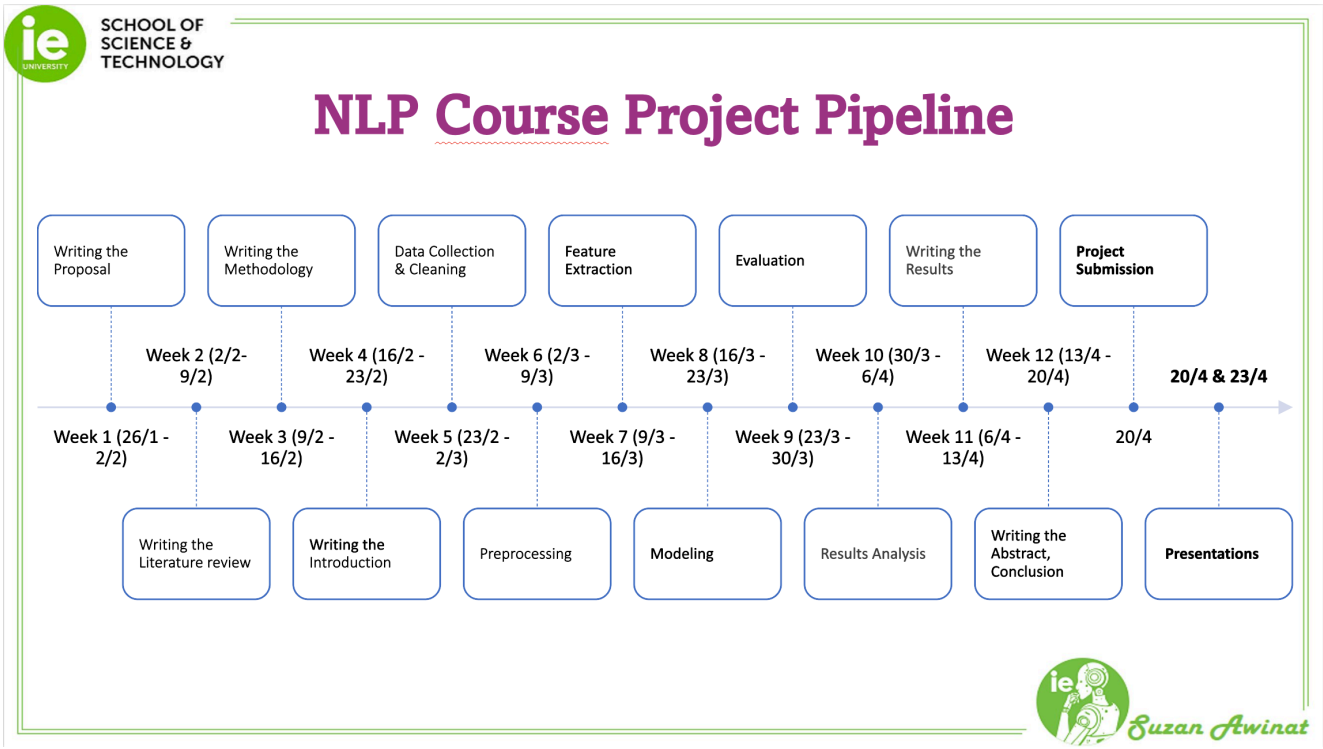
Guidelines for your projects pipeline, submission and grading criteria:

Hi again Guys,

I hope you are all excited about the upcoming NLP project. This semester, I want to encourage you to work on projects that are not only innovative and challenging but also have the potential to be published. This is a unique opportunity for you to contribute to the field of NLP and gain recognition for your work.



Project Pipeline and Submission Schedule

Week 1 (26/1 - 2/2): Writing the Proposal (2%)

- **Objective**: Define the project idea and scope.
- **Deliverables**: A brief project proposal including objectives, methodology (optional), expected outcomes, and resources needed.
- **Submission**: Submit the PDF version of your Overleaf.
- **Grading Criteria**: Clarity of objectives (1%), expected outcomes and resources (1%).

Week 2 (2/2 - 9/2): Writing the Literature Review (2%)

- **Objective**: Conduct a literature review and gather information relevant to the project.
- **Deliverables**: A summary of the literature review, including key findings and how they will inform your project.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Relevance and comprehensiveness of the review (1%), integration of findings into the project (1%).

Week 3 (9/2 - 16/2): Writing the Methodology (2%)

- **Objective**: Describe the methodology you will use in your project.
- **Deliverables**: A detailed explanation of the methods and techniques you plan to use.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Appropriateness of methods (1%), clarity and detail (1%).

Week 4 (16/2 - 23/2): Writing the Introduction (2%)

- **Objective**: Write the introduction section of your paper.
- **Deliverables**: An introduction that outlines the project background, objectives, and significance.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Clarity and coherence (1%), relevance to project objectives (1%).

Week 5 (23/2 - 2/3): Data Collection & Cleaning (2%)

- **Objective**: Collect and clean the data needed for your project.
- **Deliverables**: A report on the data collection and cleaning process.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.

- **Grading Criteria**: Completeness of data collection (1%), effectiveness of cleaning process (1%).

Week 6 (2/3 - 9/3): Preprocessing (2%)

- **Objective**: Preprocess the data for your project.
- **Deliverables**: A detailed report on the preprocessing steps taken.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Appropriateness and accuracy of preprocessing steps (1%), clarity of report (1%).

Week 7 (9/3 - 16/3): Feature Extraction (2%)

- **Objective**: Extract features from the data.
- **Deliverables**: A report on the feature extraction process.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Relevance and effectiveness of features extracted (1%), clarity of report (1%).

Week 8 (16/3 - 23/3): Modeling (4%)

- **Objective**: Develop the model for your project.
- **Deliverables**: A code notebook with the model implementation and preliminary results.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Correctness and complexity of model (2%), clarity of implementation (2%).

Week 9 (23/3 - 30/3): Evaluation (2%)

- **Objective**: Evaluate the model using appropriate metrics.
- **Deliverables**: A comprehensive evaluation report.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Appropriateness of evaluation metrics (1%), depth of analysis (1%).

Week 10 (30/3 - 6/4): Result Analysis (2%)

- **Objective**: Analyse your results and findings.
- **Deliverables**: Charts, tables.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Effectiveness and thoroughness of deployment (1%), clarity of the charts, tables (1%).

Week 11 (6/4 - 13/4): Writing the Results (2%)

- **Objective**: Write the results section of the paper.
- **Deliverables**: A comprehensive summary of the results.

- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Clarity and coherence (1%), alignment with project objectives (1%).

Week 12 (13/4 - 20/4): Writing the Abstract, Conclusion (2%)

- **Objective**: Write the abstract and conclusion sections of the paper.
- **Deliverables**: A concise abstract and a strong conclusion.
- **Submission**: Write this part in the shared paper on Overleaf using the provided paper template and submit the PDF version.
- **Grading Criteria**: Conciseness and clarity of abstract (1%), strength and coherence of conclusion (1%).

20/4: Project Submission and Presentation (2%)

- **Objective**: Submit the final project and present it to the class.
- **Deliverables**: The complete paper, code, code documentation, and a presentation summarising your project, methodology, results, and conclusions.
- **Submission**: Submit a .zip folder includes: (The notebook code, The code documentation, The paper .pdf and the presentation slides).
- **Grading Criteria**: Clarity and effectiveness of presentation (2%).

- **Note**: If you fail to submit all previous parts, you will lose all the previous points. Additionally, you will lose 1 point for each late submission.

I will create the submission spaces in Blackboard each week for the required part. Let's make this a productive and successful project
